

PRE-SEED STARTS HERE

MAKE YOUR FIRST PASS COUNT.

**EMPHASIS[®] MAX
GORDEX[™]
OXALIS[®]
SAFACYN[®]**

*Pre-seed weed control for the
crops that matter to you.*

Get ahead of tough weeds like Kochia, and set up cereals, canola, and pulses for a stronger start.

From fast burndown to extended and residual control, ADAMA has the pre-seed tools to keep your fields clean no matter the challenge.

It all starts with the first pass.

ADAMA

THE RIGHT TOOL FOR THE CHALLENGE.

Every field brings different weed pressures. A strong pre-seed program starts with choosing the right solution for the crop — and the challenge in front of you. ADAMA has the solutions to help you start clean and stay ahead.

Tough, resistant weeds in your canola?

EMPHASIS® MAX

Fast contact control of tough broadleaf weeds, including multiple resistant Kochia biotypes.

EMPHASIS® MAX
7 days after
spraying & seeding

Need extended control in cereals?

GORDEX™

Broadleaf control plus extended activity for cereal pre-seed programs when used with glyphosate.

Untreated
Check

GORDEX™ +
 $\frac{1}{2}$ rel/ac Glyphosate

Want to stay ahead of the next weed flush in pulses*?

OXALIS®

Residual Group 14 activity to help control susceptible weeds, like Kochia, as they emerge.

OXALIS®
Pre-seed application. No in-crop.
~21 days after treatment

Want consistent performance from your burndown?

SAFACYN®

Delivers reliable, fast weed control — including tough resistant broadleaves — so you can get your crop off to a strong start.

Untreated
Check

SAFACYN®
14 days after treatment

Real fields. Real pressure. Real results.

FOUR SOLUTIONS. ONE STRONGER START.

Discover your new
glyphosate partners.

EMPHASIS® MAX

Already dealing with hard-to-control weeds in canola?

EMPHASIS® MAX combines two modes of action for fast contact control of Kochia and other broadleaf weeds, helping clean up what's already in the field before seeding.

Knock down what's standing.

"We had problems with Kochia where we have poor drainage, but we added EMPHASIS® MAX to our glyphosate pre-seed burndown and it cleaned them right up."

JR Thompson | Spring Coulee, AB

GORDEX™

Need more from your first pass in cereals?

GORDEX™ combines two modes of action to deliver pre-seed control of Kochia and other broadleaf weeds with extended activity to help keep fields cleaner longer.

Make your burndown work harder.

OXALIS® NEW

Worried about the next weed flush in your pulses*?

OXALIS® adds residual Group 14 activity to help control Kochia and other susceptible weeds as they emerge, extending control beyond your initial burndown.

Keep the next flush in check.

SAFACYN® NEW

Looking for more flexibility in your first pass?

A new option for pre-seed and pre-emergent burndown. This advanced new liquid formulation delivers fast, reliable weed control with flexibility to use different types and rates of adjuvant. Add SAFACYN® to a burndown program with GORDEX™ or EMPHASIS® MAX for another way to tackle tough weed pressure.

Another powerful pass option.

**A different
choice for
pre-seed
burndown.**

*Currently registered for use in field peas, soybeans, and field corn.

YOUR PRE-SEED LINEUP

MAKE YOUR FIRST PASS COUNT.

The first pass sets the stage for the crop ahead.

Start clean, stay ahead and build a pre-seed program with ADAMA solutions built around the weeds you're facing.

EMPHASIS[®] MAX

Fast contact control for tough weeds in canola.

GORDEX[™]

Extended control to start cereals clean.

OXALIS[®]

Residual control to give pulses a stronger start.*

SAFACYN[®]

An advanced liquid formulation that's easy to handle and mix, with flexible adjuvant options to fit different pre-seed and pre-emergent burndown needs.

BUILD YOUR PRE-SEED PLAN WITH ADAMA.

We challenge you to choose ADAMA — the uncomplicated, full crop protection portfolio for cereals, canola, and pulses.
